MEMORANDUM OPINION AND ORDER

Adopted: August 14, 2014**Released: August 14, 2014**

By the Chief, Video Division, Media Bureau:

I. INTRODUCTION

1. The Video Division (“Bureau”) has before it a Petition for Reconsideration (“Petition”), filed by Griffin Licensing, L.L.C.¹ (“Petitioner”), licensee of Station KWTW-DT (“Station”). Licensee seeks reconsideration of a forfeiture in the amount of Eight Thousand Dollars (\$8,000) issued by the Video Division for the Licensee’s failure to publicize the existence and location of the station’s Children’s Television Programming Reports, as required under Section 73.3526(e)(11)(iii) of the Commission’s rules. For the reasons set forth below, we deny reconsideration.

II. BACKGROUND

2. On January 24, 2008, the Video Division issued a Notice of Apparent Liability for Forfeiture proposing a monetary forfeiture of \$10,000 for the Licensee’s willful and repeated violations of Section 73.3526(e)(11)(iii) of the Commission’s Rules.² Petitioner filed a timely response on February 21, 2008 arguing that the forfeiture should be cancelled or reduced.³ Petitioner argued that (i) Section 73.3526(e)(11)(iii) of the Rules was impermissibly vague regarding what constituted appropriate efforts to publicize the existence and location of the reports and (ii) there should be a substantial reduction in the forfeiture given the Station’s history of compliance.⁴

3. In a February 17, 2010, Forfeiture Order, the Video Division reduced the forfeiture to \$8,000 based on the Licensee’s history of compliance with the Commission’s Rules.⁵ Licensee filed a Petition for Reconsideration on March 19, 2010.

III. DISCUSSION

4. Petitions for reconsideration are only appropriate where the petitioner either demonstrates

¹ At the time the NAL was issued, the Licensee was known as Griffin Entities, L.L.C. At the time the Petition for Reconsideration was filed, Licensee was known as Griffin OKC Licensing, L.L.C.

a material error or omission in the underlying order or raises additional facts not known or not existing until after the petitioner's last opportunity to present such matters, or the Commission determines that consideration of the facts is required in the public interest.⁶ A petition for reconsideration that simply reiterates previously considered arguments will be denied.⁷ Arguments in a petition for reconsideration being raised for the first time will be considered only if they are based on changed circumstances or additional facts not known or existing at the time of petitioner's last opportunity to present such matters, or if consideration of such arguments is required to serve the public interest.⁸

5. Petitioner first argues that it did not have fair notice that its actions could result in forfeiture because the rule in question was impermissibly vague. Petitioner further argues that its use of the Internet to publicize the existence and location of the reports was an entirely appropriate method.⁹ Petitioner's argument regarding notice is without merit, as its 2006 own renewal application admitted its awareness of the rule and the Station's violation of the rule.¹⁰ The fact that the Licensee reported a violation of the rule and indicated that it had corrected it going forward by broadcasting the required announcements makes clear that the rule was not so vague as to deny the Petitioner notice of the violation. It is hard to reconcile a lack of notice with the Licensee's own reporting of the violation in question.

6. Moreover, the *Report and Order* announcing this requirement specifically listed "periodic on-air announcements" as "an appropriate manner" to publicize the existence and location of the reports.¹¹ We conclude that the rule, drafted in 1996, did not envision a notice posted on a station's website to be sufficient to notify the entire viewing public. Moreover, unlike in *Trinity Broadcasting*,¹² the Licensee cannot reasonably argue it was not on notice of the violation because it reported the violation itself.

7. Petitioner next argues that the Station's history of compliance, specifically its participation in the Alternative Broadcast Inspection Program ("ABIP"), means that the forfeiture amount should be substantially reduced.¹³ The Commission has already reduced the forfeiture amount based on the Licensee's history of compliance, and Licensee's participation in ABIP is not a fact that was not known or did not exist until after the petitioner's last opportunity to present such matters. We therefore conclude this argument is moot. Nonetheless, we further find that participation in ABIP is not a sufficient
